

FREE PHONES FOR CALIFORNIA FOSTER YOUTH 13-26 – FOREVER!

The California Public Utilities Commission is making the iFoster Phones Program a permanent program! We need to upgrade all existing phones to new phones to continue service in 2022.

- All new phone requests, unless for emergency need, are being put on a waitlist until the California Public Utilities Commission votes on July 15th.
- July 16 - wait list requests will begin receiving calls & emails to validate address & shipping will commence.
- July 19 - phone swaps for youth with existing iFoster phones begins & will occur weekly based on area code. A swap schedule will be sent out in advance to all Agencies. Youths' phone numbers will be ported to their new phone & they do NOT need to return their old phone.
- Agencies are asked to work with iFoster to inform their youth of the upcoming swap & to identify & follow-up with youth who do not respond to the Phone Swap Notification.

If you have any questions please contact Kristine at Kristine@ifoster.org or 530-550-9584
